

We enable **automation** excellence.

Engineers choose CGI technology because of absolute reliability, precision, customization and quality.

Advanced Products for Robotics and Automation

CGI Motion enables design excellence across a wide range of automation applications. We deliver electromechanical sub-assembly solutions for a wide range of food processing, factory automation and packaging applications. We are your design and manufacturing partner helping to differentiate your product, machine or innovation. Our team of problem solving engineers and product managers can bring your application to market on-time and under budget. Whether it's an improvement on a current design or groundbreaking new designs, CGI has the know-how and team to enable design excellence for your automation application. Connect with us today to explore what CGI Motion can do for you.
