SUPPLIER
TO A 2012 WINNER

More at <http://bit.ly/HjCOH3>

CGI precision gearheads and custom assemblies are used in medical applications ranging from cardiac support to medical robotics.

Advanced Products for Robotics and Automation

CGI Motion enables design excellence across a wide range of medical applications. We deliver electromechanical sub-assembly solutions ranging from medical robotics to artificial heart support systems. We are your design and manufacturing partner helping to differentiate your product, machine or innovation. Our team of problem solving engineers and product managers can bring your idea to market on time and under budget. Whether it's an improvement on a current design or groundbreaking new designs, CGI has the know-how and team to enable medical excellence. Connect with us today to explore what CGI Motion can do for you.
