

We enable surveillance excellence.

.....
CGI technology is used in precision surveillance applications.

Advanced Products for Robotics and Automation

CGI Motion enables surveillance excellence across a wide range of industrial and defense applications. We deliver electromechanical sub-assembly solutions ranging from automated camera mount systems to dynamic lens control. We are your design and manufacturing partner helping to differentiate your product, machine or innovation. Our team of problem solving engineers and product managers can bring your idea to market on time and under budget. Whether it's an improvement on a current design or groundbreaking new designs, CGI has the know-how and team to enable surveillance excellence. Connect with us today to explore what CGI Motion can do for you.
